

Cabinet Decisions taken on 19 March 2010

Cabinet has taken note of development in the implementation of the Bagatelle Dam project, which would have a storage capacity of 13.2 million cubic metres and would meet additional water requirements for the Highlands project, the new developments at La Tour Koenig Industrial Zone and the port area. The project also entails the construction of a treatment plant of capacity 60,000 m³/day and associated pipelines to convey treated water from the Dam to lower Plaines Wilhems and Port Louis South. It is expected that the construction of the Dam would be completed by end of 2013. The total cost of the project is estimated at Rs 2.6 billion.
